

Phase 1 Bikeway Grand Opening Map

As part of the US 36 Express Lanes Project, the largest section of the bikeway on Phase 1 is now open. As shown on the map below in pink, riders will be allowed to use the bikeway from Interlocken Loop to Sheridan Boulevard. At those locations, riders will need to use roadway options and existing bike trails. The small sections shown in red on both the east and west ends of the project are still under construction and will open to the public early next month.

The first phase of the bikeway is 11 miles long. When Phase 2 is completed in 2016, the entire length of the bikeway will be 18 miles, connecting Denver to Boulder. For more information about the project, please visit www.codot.gov/projects/US36ExpressLanes.
